

MATERIAL STORAGE AGREEMENT

IN-HOUSE STORAGE

Mincey Marble will house your cast marble order for up to **30** days, free of charge, starting on the date of notification of completion. If delivery arrangements cannot be made within this timeframe, weekly storage fees will be incurred until the material is shipped. **Please provide the most accurate requested delivery date possible on your shop drawing cover page so that your material can be manufactured and delivered on site when it is needed.**

ON-SITE STORAGE

MINCEY CAST MARBLE MUST BE STORED INSIDE IN THEIR ORIGINAL CRATES WHILE WAITING TO INSTALL.

ALL MATERIAL IS TO BE INSTALLED WITHIN 60 DAYS AFTER THE MATERIAL ARRIVES ON SITE.

Mincey Marble's products are packaged in wooden crates. The wooden crates are designed to safely transport the material, but they are not designed to store material for an extended time. Storing material beyond the recommended timeframe (60 days) can cause the material to warp/bow, making installation more difficult and in some cases, making the product unusable. Once your crates have been unloaded, we recommend they be stored indoors, but if that is not possible, they must be stored on a flat surface and completely covered with a heavy, waterproof tarp.

STORING IN COLD WEATHER: Special care should also be taken if the storage area is below 50 degrees as the panels are more susceptible to breakage when handling in extremely cold temperatures.

STORING IN HOT WEATHER: Special care should also be taken when storing in extreme heat and humidity. Storing in these conditions can cause negative effects on the product when stored over 60 days.

PLEASE NOTE: MINCOR™ ITEMS AND/OR MATERIAL MANUFACTURED IN COLOR #435 HAZEL SHOULD NOT BE EXPOSED TO DIRECT SUNLIGHT OR STORED IN EXTREME HEAT/HUMIDITY FOR ANY AMOUNT OF TIME. As MINCOR™ items are fire resistant, direct exposure to sunlight, high heat or humidity will cause the material to blister and pop, causing irreparable damage.

DIRECT SHOWER ENCLOSURE SHIPMENTS:

Once the expected port arrival date becomes available, the freight carrier will contact you to schedule the delivery of your shower enclosures. At that time, you have approximately 3-5 business days to confirm and secure your delivery date. If delivery has not been scheduled within this timeframe, your shipment will incur daily storage fees and penalties of \$300 - \$500, plus taxes, until your shipment is scheduled and delivered. These additional costs will be added to your final billing for payment.

By signing the cover page, I acknowledge receiving a copy of this storage agreement and will provide this information to those onsite responsible for receiving/installing the material.
