- MAS Certified Green®. Compliant with ANSI/BIFMA X7.1 standard
- 100% designed and manufactured at our location in the U.S.A. using locally sourced raw materials where possible.
- Recommend all silicone and caulking to match surround color.
- Please Note: The Chevron pattern design makes it impossible to align the angled corner grout lines. For aesthetic purposes, we highly recommend slightly off-setting the corner lines.
- Please refer to the installation instructions for the Chevron panel system or contact our office at 770.532.0451 and ask for installation customer service. You will be provided with specific instructions on measuring and cutting the panels to fit the corners.

 Copyright © 2000 Mincey Marble Manufacturing, Inc. ™

- All panels are made oversized and must be measured and cut to fit on site.
- Uses include, but are not limited to, Tub & Shower Surrounds.
- Accessory and color options are available at www.minceymarble.com.

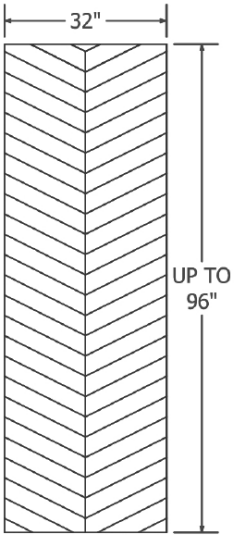

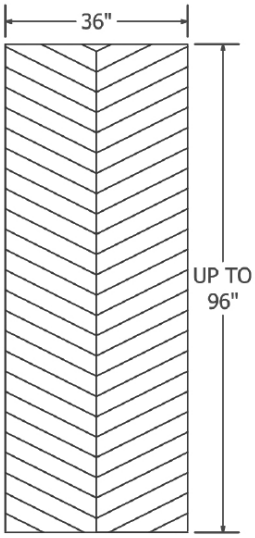

NOTE:

Due to site conditions, walls are never true and plumb. Therefore it is impossible to match the angled grout lines. We strongly recommend exaggerating the off-set grout lines in the corner conditions for design aesthetic purposes. See detail on left.

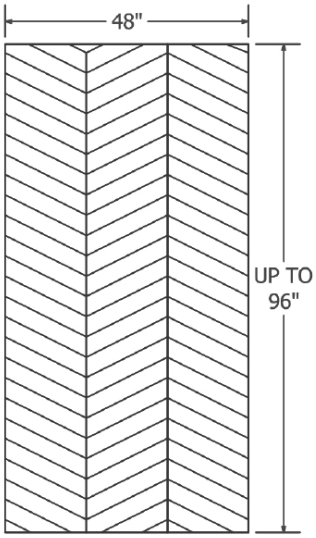

Please ensure you refer to specific instructions located within the installation instructions provided by your Mincey project manager / contact for cutting panels to fit while considering the corner conditions.
